

# Clinteract™: Smarter RTSM Solutions for Seamless Clinical Trials

**At Sharp, we recognize the vital role CROs play in delivering clinical success — and we're here to amplify that impact.**

Clinteract™ is our powerful, integrated RTSM solution designed to complement your services with end-to-end support for patient randomization, supply chain oversight, data integration, and real-time reporting.

Whether you're managing early-phase studies or complex, global trials, Clinteract delivers the flexibility, performance, and user-centric design needed to enhance your offering and help your clients run more efficient, compliant, and well-managed projects.

## Why Choose Clinteract™?

- ✔ **Fully Configurable:** Tailored to virtually any study design — including multi-part, multi-cohort trials.
- ✔ **Integrated or Standalone:** Use with or without Sharp's other services — no other Sharp services required.
- ✔ **Randomization & Enrollment:** Supports adaptive, block, covariate, and complete randomization methodologies.
- ✔ **Predictive Resupply:** Smart algorithms reduce wastage and prevent drug stockouts.
- ✔ **Proven Reliability:** Established, validated systems used across global trials.
- ✔ **24/7 Global Support:** One dedicated Sharp project team from kickoff through close-out.
- ✔ **EDC Integrations:** Extensive experience integrating with top EDC platforms — bi-directional and seamless.

## Partner with Sharp – The CRO Advantage

**Unlock exclusive partner discounts when you recommend and implement Clinteract™ for your clients' clinical trials.**

**As your trusted RTSM ally, Sharp helps you:**

- ✓ Enhance your service portfolio with a validated, scalable RTSM platform
- ✓ Deliver more value to your sponsors through streamlined trial operations
- ✓ Reduce technology spend without compromising performance
- ✓ Partnering with Sharp means more than just adopting great technology – it means gaining a flexible, experienced collaborator committed to your success at every stage of development.

**Let's connect about how our CRO partnership program can elevate your trials.**

More Than RTSM:  
Comprehensive  
Clinical Trial Support

**Clinteract™ is just one part of what Sharp Clinical Services brings to the table. In addition to industry-leading RTSM, we offer a full suite of integrated solutions to support your clinical trial from formulation to final delivery.**

**Our services include:**

- ✓ Formulation development and manufacturing
- ✓ Cold chain storage and QP release
- ✓ Comparator sourcing and analytical testing
- ✓ Global distribution – to sites or directly to patients

**Clinteract**  
Powered by Sharp

With Sharp, you gain a partner equipped to manage the full scope of clinical supply with precision, reliability, and global reach.
